Your preferred African Safari since 2005...

Since 2005, Sadaka Safaris offers international clients high quality hunting & photographic safaris in Southern Africa.

Our base lodge is situated in Limpopo Province of South Africa, a mere two and a half hours from Johannesburg International airport.

In addition to Limpopo, we also hunt in all the other provinces of South Africa as well as Namibia, Zimbabwe, Mozambique and Tanzania covering millions of acres of prime hunting land and beautiful lodges.

Most African animals could be found and hunted in the areas we operate in. Whether it's your 1st Safari or 20th Safari - Sadaka Safaris focus on quality, rather than quantity.

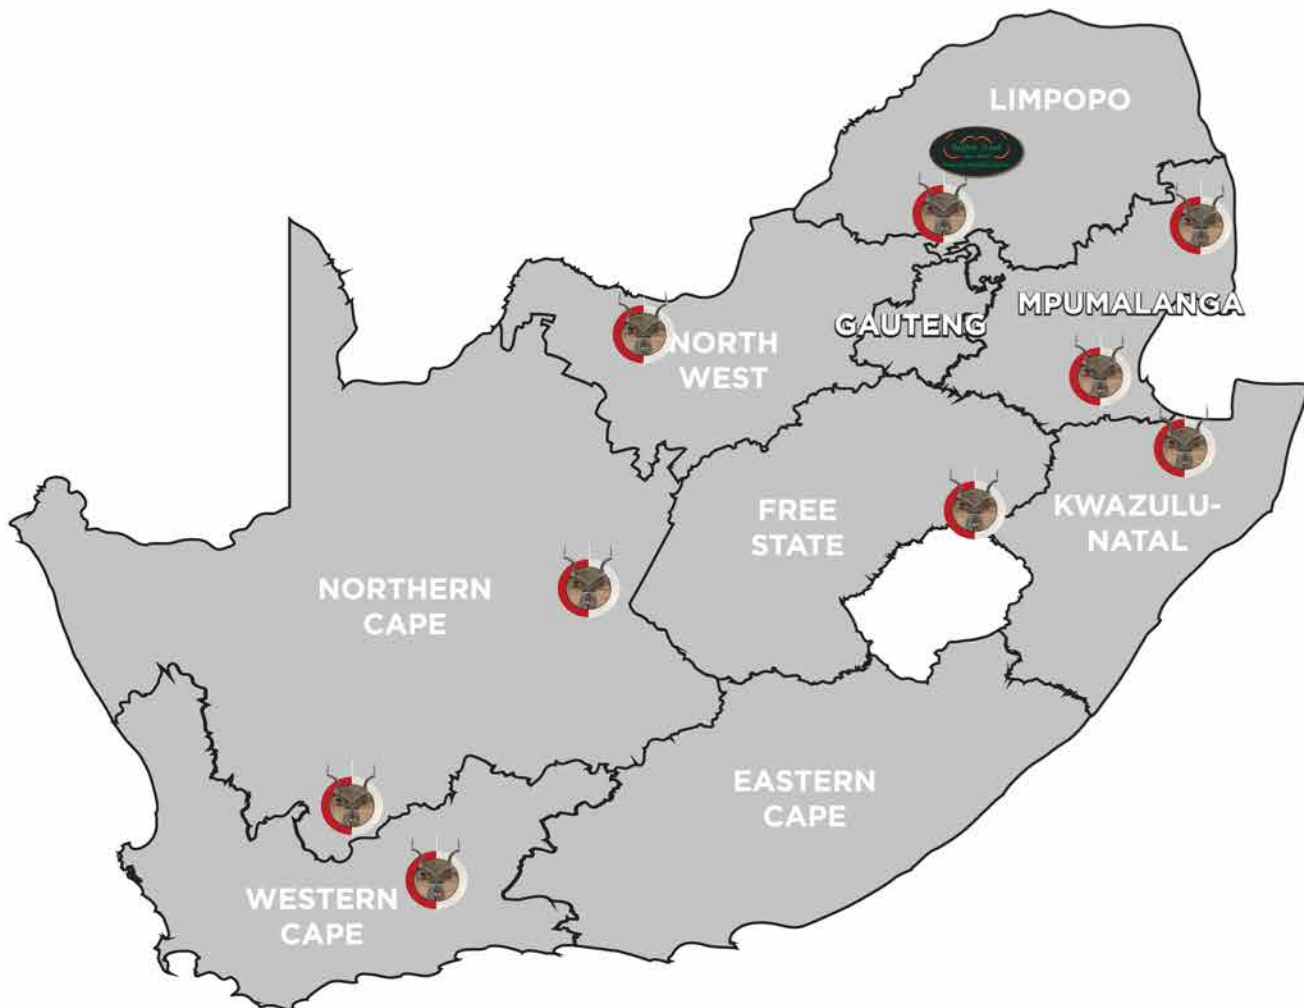

You will not be just another "number"... coming on safari with us.

From the delicious meals & BBQ under the African stars, great accommodations and friendly professional staff, to the quality of the hunting areas, trophy animals and experienced PH's and trackers - it all Will exceed your expectations.

We go beyond "horizons", from beginning to end, and you will depart as a friend, as so many of our return clients will tell you.

Having the time of your life...
